

**Don Lumley** is quickly becoming one of the go-to guys in the Saskatchewan British Car Club. When events happen, you can always count on Don to volunteer. Don drives a 1962 Vauxhall Victor Estate wagon and he has a few other assorted LBCs in the backyard. He joined the SBCC looking for a bit of advice on restoring his cars and that's what keeps him active in the club. He says everyone is welcome, no matter what you drive, and there is always help available! Don is a retired member of the military, as is his wife Marni, and they are parents of two great adult children. Don works as an automotive technician at a local garage and he helps his wife as a caregiver. Don and Marni recently moved to an acreage south-west of the city that has a huge garage. Don is overseeing the restoration of an MGB for the club; it is stored in his garage and members come out on weekends to work on the restoration or learn the tricks of the trade. Thanks, Don, for all you do for the Club!
